Community

An ecosystem that brings together trends, innovative products, transparency and community

Axolot LLC is a company that is ahead of the trends

We create and develop unique solutions that allow our users to be one step ahead of the curve

During the last 20 years we managed to gather a team of the best specialists, most of them came to us from global companies such as Revolut, Ubisoft, Cosmos, Microsoft, Google, including from the banking industry

Man in the team

Years of experience

Projects created

+50

+30

+20

Over the years, thanks to our shared professionalism and ambition, we have successfully implemented more than 30 global projects with a total monetization of more than $290 million

This result was an engine of progress and a change of vector for realizing one's own ideas

Today, we have ready-made tools in our arsenal to provide full service and financing for the company
